EMERGENCY NOTIFICATION: Microsoft Service Disruption
All HPD Staff

A reported Microsoft outage affecting the East Coast may affect Outlook email, Teams, SharePoint, and other Microsoft 365 services. Staff may experience connection errors, delays, or intermittent access.

Until service is restored:

- Use Microsoft Teams as a communication workaround if accessible. For urgent matters, confirm receipt and use established phone contacts or other approved channels if needed.
- Follow your unit's continuity procedures and notify your supervisor of impacts to critical operations.
- Continue using approved systems to protect agency information.

Monitor official HPD communication channels for updates.
